

## **We found more than 100+ investible companies across the globe for our General Partners, Private Equity and Venture Capital clients**

About Client: Our client is a globally leading General Partner, with funds raised and focused for Indian market

Client situation: Client as part of its operations continually evaluated opportunities for investments. Client needed some quality opportunities in Indian market which is a key emerging market for multiple LPs and GPs

Our Solution: Following were the major aspects of our solutions

- Preparation of information dashboards for GP, LPs, newsletters for end investors
- Identification of investible companies in Indian private ecosystem, on the basis of growth rate, funds raised and qualitative inputs on business models of the businesses
- Generating of data to be fed into client's proprietary investment tool for the decision making on the investments to be made in the market
- Small, medium and large company profiles for various stages of consideration for investments
- Deal analysis of competition funds
- Deal comparables generated for potential deals

Outcomes

- More than 100 companies prompted for investments
- 12+ companies considered for final negotiations and investments
